Turf Managers, and Other Stewards of the Land:

4 of 4 review helpful Excellent organic manual for homeowner or professional By nanasande I received my book two weeks ago and have been amazed with both the depth of knowledge given and the simplicity of delivery Every single question I have had has easily been referenced in the index Ideas are well thought out researched and communicated Recipes for the various mixtures are all together in a final chapter and cle Can you manage the landscape of a golf

course city park or corporate campus without synthetic fertilizers and toxic pesticides Absolutely Organic landscaping is not only possible on a large scale but it also makes sense both economically and environmentally It promotes healthy soils and plants which require less water and sequester more carbon mdash a winning combination for both your bottom line and the planet rsquo s fight against resource depletion and globa About the Author Howard Garrett is a landscape architect certified arborist broadcaster writer and a leader in the natural organic marketplace He provides consulting on natural organic gardening landscaping pet health pest control and green living
