Mediterranean Kitchen Garden: Growing Organic Fruit and Vegetables in a Hot, Dry Climate:

Now that growing your own food is back in fashion mdash for health financial and environmental reasons mdash Mariano Bueno gives full practical details on how to grow vegetables alongside fruit trees and a variety of aromatic medicinal and ornamental plants and herbs He gives the individual requirements of common garden vegetables and popular fruit trees and provides a calendar that describes how to care for the kitchen garden through the gardening year Exp I like the Bueno style and his plant associations and rotations are just as valid in the UK as in the Mediterranean He seems very much at home with the plants he describes Rosemary he says generates a good presence Yes That s it exactly Anna Pavord
