2 of 2 review helpful Excellent reference By J Christian While this book is primarily for gardeners residing in the Pacific Northwest there are many ideas that transplant to any geographic location The design principles are universal The book is very well organized beautifully illustrated and provides specific information regarding real world situations so that it avoids generic gardening platitudes more typically fou An organic gardener all her life and a garden writer for more than 15 years Ann Lovejoy began her foray into gardening by growing vegetables and herbs but soon branched out into making ornamental gardens as well Today her gardens combine plants of all kinds edible and beautiful in carefully arranged communities Her garden designs and plantings echo the layers found in nature Ann groups plants with similar needs according to their roles in their native habitats com West Coast gardening guru Ann

Lovejoy has gained a significant following and deservedly so she is a gifted teacher a lyrical writer and a passionate advocate of organic solutions to even the most daunting garden problems Her Organic Garden Design S
