1 of 1 review helpful Borrowed then just decided to buy By Keith R Snyder After reading many of the other reviews here rsquo s my take cheerers and jeerers make legitimate points about the content the author rsquo s style and viewpoint and how well she does or doesn rsquo t accomplish the mission of the book The early paragraphs were the idealistic environmentalism I was expecting Some of the ideas she suggests f This book is about one woman s vision and commitment to learning to live sustainably and in harmony with life on Earth Since 1976 Anna Edey has made one astonishing discovery after another developing methods of sustainable living under the name Solviva Solar Dynamic Bio Benign Design The results of her experiments and methods have again and again exceeded highest hopes and expectations Solviva describes the exciting trials and triumphs of her jou Your book Solviva is magnificent

I am always pleased to see someone carrying on good and true environmental and right living work You re one of the best John Shuttleworth founder of Mother Earth News
