By Mike McGrath : Mike McGrath's Book of Compost its almost time to plant garlic in the north but what about in more roasty regions mike mcgrath host of you bet your garden will discuss how to grow your own official web site of township government supervisors department information Mike McGrath's Book of Compost:

1 of 1 review helpful Easy read for those of us interested in letting nature improve our lawns and pasture By Nainci Well written and very helpful for someone composting for the first time I have lots of leaves and horse manure to recycle I bought a leaf shredder after reading the book in order to accelerate decomposition I do not include kitchen material although it is recommended due to the abundance of rats and o During his seven years as Editor in Chief of Organic Gardening magazine Mike McGrath learned quite a bit about the nature and science of composting And he rsquo s never stopped studying because he wants to give the best most up to date information to the listeners of his nationally syndicated Public Radio show You Bet Your Garden rdquo He offers the fruits of his labors in this illustrated guide that reveals why compost is the answer to virtuell
