8 of 8 review helpful Read cover to cover By Jo How many gardening books do you sit down and read cover to cover I did with this one No only is it very engaging and well written it is beautifully designed and put together as well If I didn t live just across the bay from Chris Shein I m not sure how often I would return to it but as I do I really appreciated the specific details of the varieties of differen lquo A masterful distillation of permaculture in a way that is easy to apply to our gardens farms and lives today rdquo nbsp mdash David Cody founder Urban Permaculture

Institute Once a fringe topic permaculture is moving to the mainstream as gardeners who are ready to take their organic gardening to the next level are discovering the wisdom of a simple system that emphasizes the idea that by taking care of the earth the earth takes From Booklist Its origins may come from the Land Down Under yet permaculture gardening is rapidly becoming a top notch way of incorporating ancient practices into contemporary food production With its goal of in
