**By Dan Chiras : The New Ecological Home: A Complete Guide to Green Building Options (Chelsea Green Guides for Homeowners)** 22 aug 2017 621pm comment the Tories should embrace electric cars and make them a green capitalist triumph our goal is to deliver practical hands on training and experience taught by leading experts in the areas we concentrate on in the magazine renewable energy organic The New Ecological Home: A Complete Guide to Green Building Options (Chelsea Green Guides for Homeowners):

0 of 0 review helpful Good resources for ideas By Chris This is a pretty good book great for some brainstorming of ideas and in a few cases ideas I hadn't yet heard of I got the book a little late just now in 2016 and though it is about 10 years old the ideas hold up 54 of 55 review helpful Excellent introduction to wide array of green building options By CustomerGK Shelter like many other elements of human existence comes at an extraordinary cost to our planet and its inhabitants In the U S alone construction of 1.2 million new homes a year results in a massive drain on Earth's natural resource base Today nearly 60 percent of all timber cut in the U S is used in building houses not to mention construction wastes and the huge amounts of resources used in the day to day operation of the modern household In addition to From the Publisher As homeowners become more environmentally savvy and demand ecological choices a new generation of architects and builders is emerging intent on creating warm and inviting homes that cause only a fraction of the environmental impact of conven
