130 of 131 review helpful Adaptable to Other Areas By Applenut Southern California is three thousand miles and six climate zones from Northern New Hampshire but I found Michael s book more relevant to growing apples in my area than all the garden books I ve seen written for Southern California He explains the mechanics of what constitutes soil heath and plant vigor and how to build it Of course the particulars and stra Many people want to grow fruit on a small scale but lack the insight to be successful orchardists Growing tree fruits and berries is something virtually anyone

with space and passionate desire can do given wise guidance and a personal commitment to observe the teachings of the trees A holistic grower knows that producing fruit is not about manipulating nature but more importantly fostering nature Orchardng then becomes a fascinating adventure sure to provide yo Booklist With the rising popularity of farmers rsquo markets and ever increasing availability of organic foods in mainstream grocery stores more and more gardeners are catching the urge to go pesticide free For fruit l
